## ENCOURAGING WORDS

### It's Everywhere That People Are

So, if you were God, how would you get one single message to every person on the planet? There are so many avenues by which to accomplish such a simple task that enumerating each possibility would be impossible. However, consider just a few universal options.

*What is everywhere that people are?* With God's power, **He could have put something in the water.** About 70% of the earth's surface is covered by water. If you're looking for something that touches nearly every soul on earth, just put something in the water and let that permeate the population.

*What is everywhere that people are?* With God's power, **He could have put something in the air.** Human beings cannot survive without oxygen—we all need it, and coincidentally, we all have it. If you're looking for something that could reach every soul on earth, just put something in the air and let that permeate the world.

*What is everywhere that people are?* With God's power, **He could have aligned the stars however He pleased.** Man has forever been fascinated with the heavens. If you're looking for something that every soul on earth can see, just write it brightly in the sky and let that saturate the minds.

If God wanted to get one single message to every person on the planet, then the most obvious means of doing that would be to employ a system that existed in every single population throughout time. But, God did not use any of the basic elements of His creation—like water, air, stars, etc. *So, what is everywhere that people are?* Well, people, of course! Everywhere there are people, there are people! Want to get one single message to all the peoples on the planet? Then, use people to deliver it to people!

God took the most valuable message ever and gave it to earthen vessels to deliver to every soul on the planet! How are you doing with it? Everywhere you go, there are people!
