STANDING FIRM IN THE LORD

“Will Your Anchors Hold?”
Acts 27:20-29

After Paul had appealed to Caesar, he needed to make the dangerous trip to get to Rome. In Acts chapter 27 we read of the events and causes of the wreck of the ship Paul and his companions were sailing in. We can see how Paul responded to his storm and we must use our God-given anchors in order to weather the storms of this life. What are these anchors?

1. Pray about it- talk to God.
*James 5:16-17
2. Read the Bible- let God talk to you.
*Psalm 91:14-15
3. Lean on other Christians
*James 5:14- ask for help!
4. Depend on God- He loves you! We can trust in Him.
*Not like we planned it but better
*1st Corinthians 6:19-20
*Romans 8:28

Conclusion: Trust God, cast out your anchors and put your faith in Jesus and we can weather any storm this life may throw at us. Psalm 46- “God is our refuge and strength, a very present help in trouble.”

ENCOURAGING WORDS

His Divine Design

The human body is a marvel of God's creation. We are "fearfully and wonderfully made," says the Psalmist. Whether we look at ourselves from a Biblical point of view or a biological point of view, we human beings are truly amazing creatures. The Bible declares that it was God who formed our inward parts. God knit us together in our mothers' wombs. (Psa. 139:13-14)

God created us for HIS glory. (Isaiah 43:7)
Around the throne of God He is praised with these words: "You are worthy, O Lord, to receive glory and honor and power; for You created all things, and by Your will they exist and were created" (Revelation 4:11).

God gave the human body tremendous healing powers. God is our healer because, among other things, His design of the human body includes several amazing systems and processes that cause healing to occur. In this sense, all healing belongs to God! No wonder the Psalmist says, "Praise the LORD, O my soul, and forget not all his benefits who forgives all your sins and heals all your diseases" (Psalm 103:2-3).

For the most part, physicians do not really heal sickness; they merely improve the conditions for the body to heal itself. Vaccines trigger the body's own immune system and have been designed to program the body's own immune system. There are obviously medicines and treatments that don't work. A few do more harm than good. The reasons for this can usually be traced to carelessness, greed, or pride on the part of humans. But the medicines that do work, work because of the Divine Design of the human body!
